

- 1) Request your listening history on Apple / Spotify.
It will take a few days for the data to get ready.
- 2) Once the data is ready, download it from the link provided by Apple / Spotify. (They will notify you once it's ready - for download.)
- 3) The folders will probably have a lot of different files, but you should look out for these two files:

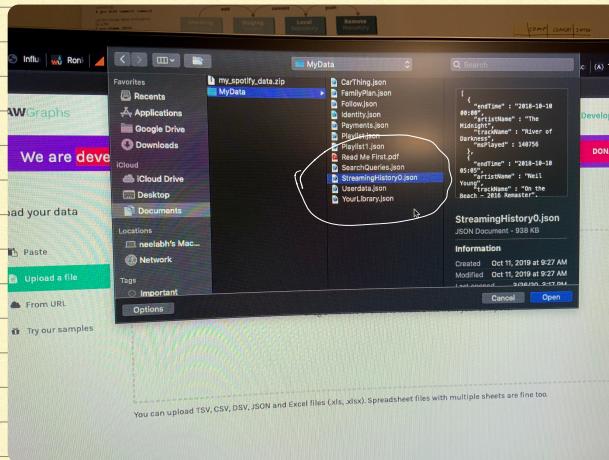

- 4) Head over to App.rawgraphs.io

- 5) Click on upload from a file.

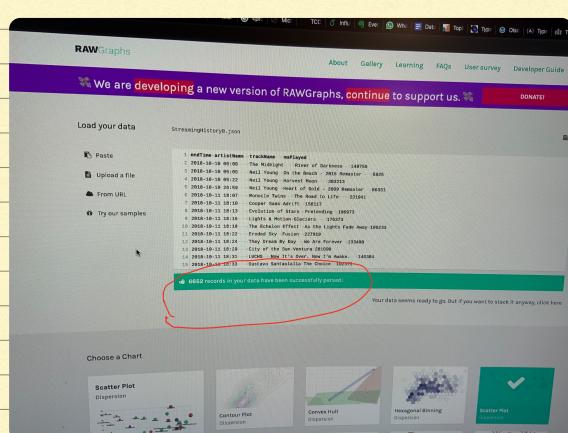

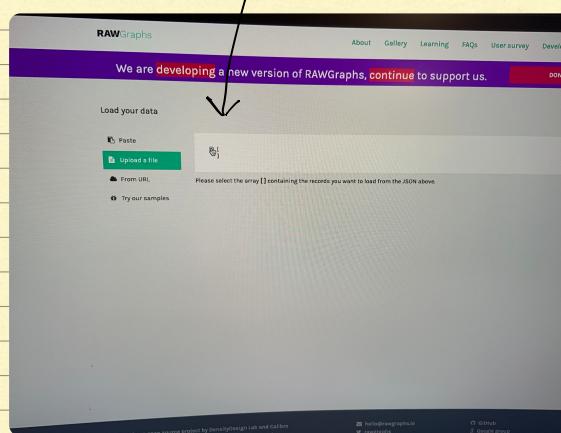

6) select the file mentioned in step 3.

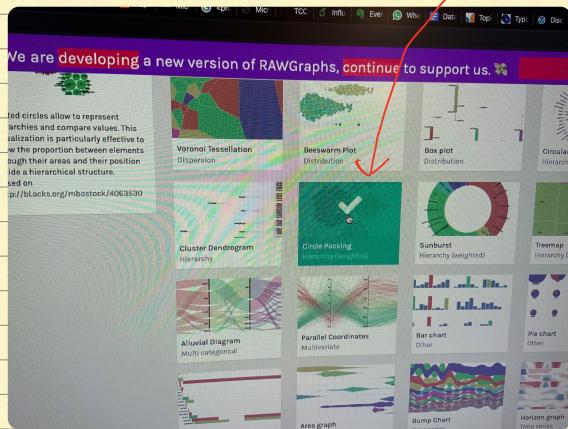

7) It will take a while, once it is uploaded, select the data by clicking on it.

click here. (Be Patient, It will take a while)

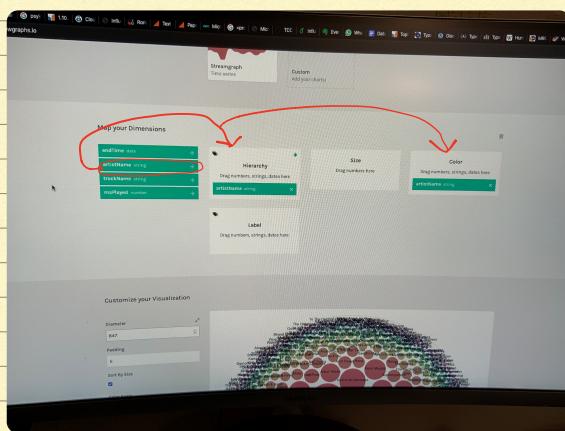

you will get a notification that your data has been successfully parsed.

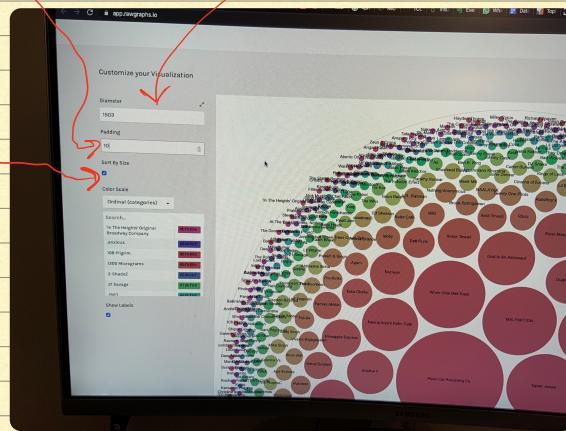

8) Scroll down and select circle packing.

9) Drag and Drop Artist name to Hierarchy and color.

10) check sort by size and adjust the diameter
and padding as you wish. (1500, 10 works for me)

11) Download the file.
